*The information given below is intended to provide an understanding and appreciation of the workload of the job and its role within Everwarm. The job description outlines the main purposes in general terms only and is not intended to be prescriptive.*

*You may be required to carry out other duties in order to commensurate with the post. This will not change the character or purpose of the post but will be necessary to maintain high standards of business practice.*

*This job description, through Business reasons, may be altered from time to time to meet the changing needs of the Company.*

## Overview of Role

We are seeking an experienced and knowledgeable compliance individual with a strong background in designing renewable technology installations and operational management covering all delivery aspects, e.g., product performance, cost-savings, pay-back periods, and measuring the impact of wider environment.

Our Renewable Energy Manager will hold accountability for the successful delivery of our energy efficiency contracts and contribute to the development and implementation of Company strategies, policies, and practices.

## Key Responsibilities:

- Responsibility of operational performance and successful delivery of renewable energy contracts.
- Designing renewable technology installations inclusive of heat loss calculations, sizing of systems, and performance of installations and measures carried out.
- Day-to-day management of your team; responding to queries and carrying out visits of works.
- Ensure Clients targets dates are adhered to and any variations notified immediately.
- Identification/agreement of variations (with Client).
- Monitor and Assess performance of team to achieve greatest efficiency and outputs.
- Everwarm are approved contractors of MCS and NICEIC governing body. Part of role would ensure compliance for annual audit from governing body (preparing for the assessment and fulfilling role as Qualified Supervisor as defined by MCS and NICEIC). This will include but is not limited to ensuring Company accreditations are up-to-date and working with the Health and Safety department to prepare for internal and external audits.
- Prepare budgets and inventories
- Coach and develop direct reports and ensure sufficient allocation of resources to meet client expectations.
- Ensure Health & Safety & Environmental procedures and standards are adhered to.
- Ensuring all certification and documentation is completed accurately.
- Monitor and implement measures to improve KPI's.

# Job Description

- Support recruitment of new employees.
- Ensure current staff are fully compliant with current regulations and Company procedures. Work with Health and Safety to ensure training matrix is up-to-date and support Training Administration team to ensure courses are booked in advance to maintain qualifications.
- Conduct probationary reviews with new staff members and performance reviews with existing staff members
- Upskill staff via regular coaching sessions or toolbox talks.
- Complete WIP/compliance audit on field-based employees/subcontractors. Implement any actions highlighted from these visits.
- Produce monthly board report for Department.
- Support Health and Safety Department by investigating electrical incidents and reporting accurately and fully.
- To ensure correct uniform is worn at all times when representing the company.
- Be prepared to work flexibly with the possibility of work away from home and outside normal working hours depending on the needs of the business.
- To report any vulnerabilities or concerns to management so it can be addressed.
- To keep your allocated company vehicle clean and tidy at all times ensuring any waste is disposed of to company/HSE regulations. Ensure the same of your team with regular spot checks of vans.
- To be fully conversant with all aspects of electrical installation.
- Ensure compliance with the IEE Wiring Regulations at all times, and that the appropriate materials used.
- To liaise with customers to resolve complaint resolution.
- To work with, and provide information relating to technical matters, to Senior Management.
- Ensure that any required qualifications for your position remain valid and to ensure that any necessary training is arranged and undertaken within the specified timescales.
- To attend meetings, training sessions and conferences as required.
- To participate in the on-call duty manager rota as required.
- To act at all times in accordance with the Group's rules, policies, procedures and financial regulations

## Qualifications

- Recognised City & Guilds electrical qualification (e.g., electrical installation theory. Associated studies, electrical and electronic craft studies)
- City & Guilds 18th Edition (2381)
- Renewable Fuels (Solar PV; Solar Thermal; Air Sourced Heat Pumps) – City & Guilds or equivalent BPEC City & Guilds Electrical Testing or Scottish NVQ Level 3 equivalent • A recognised management qualification (Level 4 NEBSM, SMVQ or similar)

## Skills, Knowledge, and Experience.

- The ideal candidate will hold knowledge and or qualification relating to PAS 2035/Retrofit experience.
- At least 5 years' experience within Contract Management, operational, or technical role.
- Confident with an in-depth understanding in EVCP, Thermal and energy storage.
- Strong track record of delivering to a very wide range of clients in local authorities, housing associations, commercial and private markets.
- Strong stakeholder management.
- Strong communication, organization, persuasion, influencing, negotiation and decision-making skills.
- Meticulous attention to detail.
- Ability to assess situations and develop/implement improvement plans.
- Ability to work effectively at all levels of the Company
- Strong Commercial awareness
- Sufficiently mobile and flexible to attend evening meetings/appointments.
- Excellent negotiation skills.
- Excellent organizational skills, in particular the storing of information pertinent to Contracts

# Job Description

- 5 years people management skills.
- Good communication and influencing skills.
- Accurate recording and reporting of information.
- Ability to working autonomously.
- Planning and Organizing (Scheduling own workload, keeping to reporting deadlines).

## Additional Requirements:

- Disclosure Check/DBS
- Full Clean Driving License

## What We Offer

- Competitive Salary
- 10% car allowance and mileage to represent Everwarm on your travels.
- Employer contributed pension scheme
- Employee Assistance Programme with 24 hours telephone and online access and 6 counselling sessions.
- 32 days annual leave (Inc. statutory bank holidays and Christmas and New Year Closure!)
