

Job Title	Estimator		
Department	Business Development		
Location	Bathgate, travel as business needs require.		
Reporting to	Head of Bid Management		
Line Manager to	N/A		
Key Relationships	hips Directors, Bid Team, Commercial Team, Divisional Managers, Clients, Supply Chain.		

The information given below is intended to provide an understanding and appreciation of the workload of the job and its role within The Company. The job description outlines the main purposes in general terms only and is not intended to be prescriptive.

You may be required to carry out other duties commensurate with the post. This will not change the character or purpose of the post but will be necessary to maintain high standards of business practice. The post-holder will be expected to participate in developing Everwarm / Sureserve Quality Standards.

This job description, through Business reasons, may be altered from time to time to meet the changing needs of the Company.

Purpose of the Role / Role Overview:

To support growing business unit, prepare and produce accurate cost estimates from receipt of Tender enquiry to Tender Settlement stage and to achieve the Company's Business Plan targets.

General Duties / Key Responsibilities:

- To deliver the Estimating process to ensure work is undertaken to commercial and qualitative performance standards in a timely manner, to ensure consistently accurate estimates to meet or exceed the business goals.
- To plan and organise the work to ensure at all times that it meets timely and qualitative objectives.
- To ensure that the Company policies and procedures for the business are followed.
- To provide estimating advice and commercial support to the Bid team, Regeneration and business wide as appropriate.
- Review opportunities to strengthen the bid process and taking advantage of any competitive edge.
- Take ownership for the timely processing of sub-contractor enquiries
- Liaising with the business buying teams / supply chain team as appropriate.
- Evaluating / negotiating sub-contractor's quotations and producing competitive costs for packages where quotations are required.
- In conjunction with the divisional managers regularly review supply chain performance and take any action required regarding discrepancies.
- Ensure that the tender risks in relation to all contracts are correctly identified and accounted for, and review lost tenders to see why, how and where improvements can be made.
- Develop and implement the competent use of data spreadsheets and databases in order to maximise the efficient sourcing and collection of data to enable the production of accurate cost estimates to time.
- Measurement and preparation of accurate quantities from tender documents in order to ensure maximum competitive edge with a view to maximising tender success.
- Ensure that a consistent internal tender settlement / reconciliation report and handover process is implemented, and that pricing levels, margin and risk meet the approved business strategy.
- Meet and liaise regularly with the Bid Manager for regular reviews and updates.

Job Description

- Develop and maintain pricing masters by analysing and summarising estimating information trends.
- Liaise regularly with the Senior Management teams with regards to workload, holidays, procedures and tender business targets.
- Work closely with the Commercial teams to initialise, contribute and review the CVR process
- Alongside the Commercial teams contribute to the post project commercial review / reconciliation.
- Responsible for tender estimates / price build-up across the divisional work streams.
- Work closely with the business development and bid teams across the business.
- Work closely with the operational teams, to be business led across the various divisions.
