Location	Bathgate, travel as business needs require
Reporting to	Operations Manager
Line Manager to	N/A
Key Relationships	Operations Director, Operations Manager, Contract Managers, Project Manager, Design & Technical Team, Administration Team, Trades, Customers, Client. H&S, HR.

The information given below is intended to provide an understanding and appreciation of the workload of the job and its role within Everwarm. The job description outlines the main purposes in general terms only and is not intended to be prescriptive.

You may be required to carry out other duties in order to commensurate with the post. This will not change the character or purpose of the post but will be necessary to maintain high standards of business practice.

This job description, through Business reasons, may be altered from time to time to meet the changing needs of the Company.

Role Overview:

We are seeking a focused and determined individual with a passion for analysis and strong reporting skills to support various contracts and projects across our departments within Everwarm. The ideal candidate will have extensive knowledge in electrical and renewable technologies. The role will provide project and administrative support within the Design Team and aid our Project Manager and design colleagues with strong technical knowledge and coordination skills, as well as liaising with internal and external coordinators.

General Duties/Key Responsibilities:

- Have a clear understanding of a day-to-day basis of the key departmental projects and contracts, as well as tasks assigned to the project to ensure the smooth running of the contract from an administration and technical perspective. This can include supporting the progress meetings, measures, surveys, remedial works, customer service, complaints, reporting, and trend analysis.
- Undertake delegated work as directed by the Operations Manager i.e. one-off projects/reporting.
- Supporting the 360-contract/scheme process, including aiding the project to be in line with legislative and key process changes.
- Support planning and processes to ensure project KPI's are met.
- Gathering documents and files together in preparation for submission.
- Methodically check each section of the document to ensure all details are accurate. This will vary depending on the job but as an example - customer/clients details are correct, measures selected are correct and installed, tenure matches tenure document, pictures are included if requested by the client, serial numbers are correct, proof of earnings/ID has been provided. (A full breakdown of all steps required for each job can be provided to the successful applicant).
- Update spreadsheets to track invoices/claims.
- Input into company database.
- Audit spreadsheets, database and documents to ensure accuracy.
- Liaise with internal departments and external companies to ensure accuracy of documents submitted, resolve queries.

Job Description

- Ensure the delivery of the Service Level Agreements/client specifications to ensure business is credited for works completed.
- Dealing with correspondence, complaints, and queries
- Providing data to aid the preparation of weekly/monthly reports.
- Liaising with staff, suppliers, and clients
- Adhering to procedures/office administrative systems
- Ordering ad hoc materials as project needs

PERSON SPECIFICATION

Skills and Abilities

- Strong technical experience e.g., design, electrical, renewables.
- You will have excellent administrative skills and data entry experience.
- Ability to work as part of a team as well as autonomously.
- Excellent attention to detail.
- High numerical efficiency.
- Excellent communication and interpersonal skills
- Ability to meet and exceed customer expectations.
- Experience of Outlook packages (Excel, Word, Outlook)

Qualifications

- Relevant trade qualification e.g., City & Guilds electrical, 18th edition, Testing and Inspecting.
- Renewable system design qualification e.g. ASHP, PV, Battery storage.

Additional Requirements:

- Flexible approach to work.
- Disclosure Check
